

## IN THE SPECIFICATION

Please replace the paragraph beginning at page 43, line 19, with the following rewritten paragraph:

Next, the autoclave was further charged with 5 mM of triisobutyl aluminum, 5  $\mu$ M of N,N-dimethyl anilinium tetrakis(pentafluorophenyl) borate and 1  $\mu$ M of (1,2'-dimethylsilylene) ~~(2,1'-dimethylsilylene) bis(3-trimethylsilylmethylindenyl)~~ (2,1'-dimethylsilylene) bis(3-trimethylsilylmethylindenyl) zirconium dichloride as produced in EXAMPLE 1, and then the polymerization was conducted for 90 min.

Please replace the paragraph beginning at page 44, line 6, with the following rewritten paragraph:

Next, the autoclave was further charged with 5 mM of triisobutyl aluminum, 5  $\mu$ M of N,N-dimethyl anilinium tetrakis(pentafluorophenyl) borate and 1  $\mu$ M of (1,2'-dimethylsilylene) ~~(2,1'-dimethylsilylene) bis(3-trimethylsilylmethylindenyl)~~ (2,1'-dimethylsilylene) bis(3-trimethylsilylmethylindenyl) zirconium dichloride as produced in EXAMPLE 1, and then the polymerization was conducted for 90 min.
